1. Yugoslavia urgently requires 15,000 tons of each of the following fuels, and
is prepared to pay for them in dollars:

- a. Kerosene for tractors
- b. 80-octane gasoline
- c. Diesel oil

2. It has been hoped that these fuels could be obtained from Rumania in
sufficient quantity to cover all demands, but Yugoslavia has failed to re-
ceive the amounts which the Rumanian Government has agreed to supply. There
is fear of a general shortage of oil fuels in Yugoslavia.

3. At present, Yugoslavia is also offering [redacted] five tons of silver,
200 tons of lead rated at 99.9 percent and 1,500 tons of bauxite presumably
for petroleum products. War cement production is sold out for the time
being.
